

Workshop Information

Message from the Organizing Chairperson

It gives us great pleasure to welcome all of you from all around the world to this inaugural Minimally Invasive Spine Surgery Workshop & Live Surgeries, which is organized by the Spine Unit of Universiti Kebangsaan Malaysia Medical Centre and co-organized with the Aesculap Academy Malaysia and Advanced Surgical Skills Centre, UKMMC. This workshop is also supported by the Malaysian Orthopaedic Association.

Being an alternative to the traditional method, minimally invasive spine surgery has gained much attention and is becoming the trend and the method of choice. Utilizing much smaller incision and endoscope, this method has been typically credited with better clinical outcome, less pain and scarring, faster recovery time and lower risk of complications.

Drawing the expertise from some of the local and international experts in this area, it is hoped that by the end of this workshop, participants will be able to strengthen their skills and confidence in approaching minimally invasive spine surgeries.

Mr Hisam Muhamad Ariffin

Organizing Chairperson & Consultant Spine Surgeon
Dept of Orthopaedics & Traumatology
Universiti Kebangsaan Malaysia Medical Centre

Faculty

From Malaysia

Mr Hisam Muhamad Ariffin
