## MESSAGE FROM THE ORGANISING CHAIRMAN

Dear fellow Arthroplasty surgeons and colleagues

We are pleased to announce that we will be having our first National Knee Revision course organized by the Malaysia Arthroplasty Interest Group (MAIG) in early October 2017.

The unique course will be held in the Tok Aman Bali, a beautiful coastal region of Kelantan for a breathtaking and one of a kind experience.

This exciting course is to focus on mentoring our local uprising arthroplasty surgeons on the latest trends in revision knee Arthroplasty, controversies and hands-on teaching in instrumentation of the revision surgery.

We are indeed honored to have a number of our esteemed national speakers to complement the presentation and teaching of this very compact course. I strongly believe that our participants will greatly benefit from their vast & experience.

During this course, we will be able to discuss the complicated problems involving failed primary knee arthroplasty and to provide a platform for young arthroplasty surgeons on knowledge and ideas in the practice of revision knee arthroplasty.

On behalf of the MAIG I strongly encourage young arthroplasty surgeons to attend this course as it will provide an insight into current practice of revision knee arthroplasty.

I look forward to welcoming you in Tok Aman Bali, Pasir Puteh, Kelantan.

Yours Sincerely,  
**Dr. Shaifuzain Abd Rahman**  
Organising Chairman

## MESSAGE FROM THE PRESIDENT MAIG

It gives me a great pleasure to invite all arthroplasty surgeons and inspiring orthopedic surgeons in Malaysia to participate in the 1st MAIG annual scientific Meeting from 6th to 8 Oct 2017 in Tok Aman Bali, Pasir Puteh, Kelantan.

The aim and mission of this group have remained as strong as they were few years ago when first founded; to promote and develop the knowledge and skills in Arthroplasty in Malaysia, at the same time to serve as a platform for academic excellence and for arthroplasty surgeons in Malaysia to make new acquaintances, strengthen our bond of friendship and exchange experience among us.

This time our theme is on the revision knee arthroplasty: history, present and future. The topics will revolve around revision knee surgery, which is currently becoming more crucial as cases of total knee replacement in Malaysia are increasing. Hopefully, with this course; it will promote the advancement and understanding of revision surgery and give better care to patients who underwent this surgical intervention.

Tok Bali is a town with lots of surprises especially with some of the best local cuisines that it can offer. Open yourself to a wonderful experiences that you can indulge here.

I hope you will have a great time in Tok Bali. Enjoy the journey and never stop learning.

Yours sincerely  
**Prof (Dr) Amran Ahmed Shokri.**  
President MAIG
