01/2021

COMMON ORTHOPAEDIC PROBLEMS : OPINIONS & UPDATES

11TH APRIL 2021 | 2.30PM – 5.00PM

Introductory Remarks

It is with great pleasure that I announce the First in a series of educational webinars to be held on the Malaysian Orthopaedic Association platform over the course of a year as a CME programme. We have a variety of interesting topics and hope it provides members with up-to-date thoughts, advice and techniques as practiced by some of our esteemed colleagues, including a forum to answer questions. The Council members had our junior surgeons in mind when this project was initiated to encourage membership, but we would like to address the surgeons-to-be as well, encouraging them to join as associate members to gain complimentary access to these sessions. We would like it to be a meeting place for lively and open discussions, creating camaraderie and connections.

The First will be kick-started as a two-hour unit and 2 CPD points will be awarded. It will also aid those in need to collect their CPD points for the year. Subsequent sessions may be more streamlined to sub-specialties and we will even try to oblige requests for topics in demand, so do drop us a line to share. Thank you to all those who made this a possibility!

**PROF. DR. SHARIFAH
ROOHI SYED
WASEEM AHMAD
MOA PRESIDENT**

**DATUK DR. ABD RAUF
HJ. AHMAD
(Hospital Tuanku Jaafar)**

**DR. OZLAN IZMA
MUHAMED KAMIL
(Gleneagles)**

**PROF. DR. JAMAL AZMI
MOHAMAD
(KPJ Selangor)**

**ASSOC. PROF. DR. MOHD
NIZLAN MOHD NASIR
(UPM)**

**DATO' DR. BADRUL AKMAL
HISHAM MD. YUSOFF
(UKM)**

**PROF. DR. WAN FAISHAM
WAN ISMAIL
(USM)**

My opinion

- 2.30pm : Opening by MOA president
- 2.40pm : Clavicle fracture: Conservative or Operative Treatment [Rauf]
- 3.00pm : Adoi back pain! Slipped Disc? MRI scan? Surgery? [Ozlan]
