

Course Overview

The two-day course will offer participants an opportunity to discuss the basic principles and current trends of total knee (TKA) and hip (THA) arthroplasty. The course will combine clinical theory and intensive specimen skills training aimed to highlight the surgical tips and tricks on performing success primary total joints replacements.

Who Should Attend

This course is intended for practicing orthopaedic surgeons who are in the early stages of performing TKA/THA procedures.

Registration Fee

- * Registration fee is complimentary upon successful acceptance for this course.
- * Registration is by first come first serve basis. Only 16 participants will be accepted for the course.
