

Workshop Information

Organizing Chairperson

It is again with great pleasure to welcome all of you from all around the world to this 2nd UKM spine International Spinal Deformity Course. Organized by the Spine Unit of Universiti Kebangsaan Malaysia Medical Centre and co-organized by Aesculap Academy Malaysia and Advanced Surgical Skills Centre.

As we see the growing trend of the aging population and the increase in active lifestyle across the globe, this had led to greater interest in the spinal osteotomies for both surgeons and patients.

We are fortunate to have the local and international experts to share and exchange knowledge and techniques in the complex management of spinal deformities. We will ensure that this course will be an informative and fulfilling one.

Dr Hisam Muhamad Ariffin

Consultant Spine Surgeon
